Creating Animations in Beamer using `xmpmulti`

LianTze Lim/Wikihow

All images from Wikihow: How to Draw a Cat Face

Preparation

- Make sure your images are named as `<filename>-<x>.<format>` where `x` is the sequence number.
- By default, `x` starts from 0, but you can specify a custom starting number.
- Example: `fig-0.png`, `fig-1.png`, `fig-2.png`,...
- The following example uses 8 images named as `Draw-a-Cat-Face-Step-1.jpg`, `Draw-a-Cat-Face-Step-2.jpg`...
